CompTIA Security+ (in progress) (2022)

PROFESSIONAL EXPERIENCE

THE PUBLIC INTEREST NETWORK, Denver, CO

2009 – Present

Director of IT (2016 – Present)

- Founded and oversee the organization's IT & Security team, crafting organization-wide security policies in collaboration with the Legal team and the President's Office.
- Write and maintain IT and security-related documentation and trainings.
- Hold bottom-line responsibility for the roll-out, maintenance, security, and support of IT systems used by all staff, including email, user authentication, document management, and custom internal applications.
- Serve as the technical point-of-contact for IT-related PCI DSS issues, investigate and remediate potential IT security incidents, and maintain IT and security-related documentation and trainings.
- Notable achievements while in the position have included:
 - Developed and implemented a security tier system for offices and staff to rationalize existing IT and physical security policies.
 - Created an internal system for the provisioning and management of the full lifecycle for accounts in services managed by the IT & Security team.
 - Oversaw the successful migration from a legacy vendor email system to Google Workspace, and from a legacy LDAP system to Okta.
 - Managed the successful roll-out of two-factor authentication to the staff, the transition to Microsoft 365, and the migration of multiple office-based phone systems nationwide.
 - Upgraded and managed office networks nationwide.

Manager of Online Outreach Technology (2009 – 2016)

- Served as the key point on data analysis, database development, and IT vendor management for the organization's digital organizing program.
- Evaluated and developed new organizing tools and reports for the Digital team and created a customer Perl script to generate constituent mass-mailings.
- Managed multiple Ubuntu, CentOS, and Arch Linux servers running mission-critical applications, including LDAP/GOSA, MySQL, NFS, Git, Postfix, Apache, CiviCRM, WebGUI, and Tenable Security Center.
- Responsible for contractor and vendor relations for all Digital team technology, as well as associated budgets.
- Wrote/curated a large library of custom SQL and PL/SQL scripts for reporting and data import, export, and clean-up.
- Provided wide-ranging support in the development of content and outreach strategies as part of a rapid response organizing team.
- Managed the social media presence for the Recruitment team and served as the technical point-of-contact for PCI DSS and computer security issues.
- Provided general technical support for the Denver office's staff and maintained the office's network.
- Notable achievements while in the position have included:
 - Oversaw the successful migrations of an in-house constituent relationship management (CRM) and action system to Convio, followed next to Salsa and MySQL.
 - Led a successful project that integrated vendor CRM databases with a separate system hosted by ROI Solutions.

PREVIOUS EMPLOYMENT: Chaperon — U.S. Anti-Doping Agency, Apartment Manager — Equity, LLP, Retail Manager/Floor Manager/Book Seller — Tattered Cover Book Store.
